About real estate

W Residences Dubai Harbour by developer ARADA is an exclusive residential project that combines sophisticated elegance with everyday comfort. This unique complex in the prestigious Dubai Harbour area offers homes with panoramic views of Burj Khalifa and Dubai Canal, where every detail is designed with an emphasis on quality, privacy, and comfort.

The architecture of the project emphasizes airiness, open layouts, and a seamless connection between the interior and exterior. Large windows bring plenty of natural light into the apartments and underscore the elegant, timeless character of the residences. Premium materials and precise workmanship ensure a high standard of living and long-term property value.

Residents have access to world-class hotel amenities – infinity pools, wellness areas, a modern fitness center, a residential lounge, and landscaped green areas for relaxation and socializing. The project supports community life, families, and professionals while maintaining the utmost privacy and exclusivity of each residence.

The project is located in the heart of Dubai Harbour with quick access to Dubai Marina, Palm Jumeirah, and other key parts of the city. There are top-notch restaurants, shops, and services in the area, and residents can enjoy a peaceful waterfront environment without losing touch with dynamic city life.

Scheduled for completion in the fourth quarter of 2028, W Residences Dubai Harbour is set to become a prestigious address for clients seeking not only a home but also a lifestyle with long-term value in one of Dubai's most attractive areas.
