About real estate

In the newly emerging project Corso Harrachov we offer for sale an exclusive apartment 2+kt with a generous south terrace that runs through the entire apartment and offers panoramic views of the ski jumping area. This is one of the best apartments in the entire project due to its layout and orientation. It is currently possible to extend the apartment by the adjacent apartment and get a 4+kt layout.

The project Corso Harrachov is located right next to the ski slope and offers the possibility of ski in - ski out. In addition to the unique location and the unrepeatable view from the apartment, you will have at your disposal reception, lobby, café with breakfast service, wellness and sauna world with services, as well as a games room and playroom for children or ski and bike service.

The high-standard project with high-quality materials was created under the supervision of the architects Mr. and Mrs. Pizinger from the Morix architectural studio.

This is a unique appreciation of your investment in mountain holiday property, which can often bring you better appreciation than a savings account, term deposits, etc. The perfect location in the centre of the resort at the entrance to the ski area and the designed high standard of the apartments with 4* resort services is a permanent guarantee of the highest demand and returns when renting your future apartment in the Corso Harrachov project.
