About real estate

We are offering for sale a 2+kt apartment with a floor area of 45.7 sqm with a terrace of 5.8 sqm and a front garden of 44.2 sqm in the NEAR living development project in Prague 8, located on the border between Palmovka and Karlín.

In the rapidly developing Prague district of Palmovka, just a few minutes from the metro, a new residence is being built that will fulfill your dreams of modern urban living. It offers a combination of a peaceful setting, stylish interiors, and easy access to the city center. Thanks to its location, you will have Karlín, Holešovice, and Rohanský Island within easy reach—and a home you will be happy to return to.

The project will create a total of 212 low-energy apartments with their own 425 sqm community garden. Each of the apartments, from starter 1+kk to family 3+kk, has been designed with an emphasis on efficient use of space and high-quality furnishings. It combines architecture with practicality, the city with tranquility, and life with the future. It will become a future architectural icon of Palmovka, designed by the prestigious architectural studio IBA architects.

The standard includes underfloor heating and heat recovery – for maximum comfort and a pleasant home atmosphere. Vinyl flooring, designer tiles, and ceramic tiles are available in several designs. Plastic windows with insulated triple glazing, preparation for external blinds on all windows facing the street. The energy class B residence will have a total of 8 above-ground floors and two underground floors. It is possible to purchase a garage parking space and cellars with the apartments.

Living on the border between Palmovka and Karlín today means more than just access to the metro. It means being close to everything that makes a city a city – good coffee, culture, parks, and a quiet place for yourself. Do you like the vibrant center of Prague or Karlín, Žižkov, or Holešovice? You can get anywhere in a few minutes – on foot, by bike, tram, or metro, which is only 6 minutes away from the project (Palmovka and Invalidovna stations). Thanks to its location, modern standards, and low operating costs, the project is attractive for both personal living and investment.

The developer of the project is Fidurock, a Czech real estate investment group.
