## About real estate

We are offering for sale a spacious 132 m<sup>2</sup> penthouse in a new residential project, which is being built in a quiet location in the town of Kaštela. The apartment is located on the top floor of a modern building and, thanks to its location in a gated complex, offers future owners privacy, security, and maximum comfort. The main attraction is the spacious terrace with a hot tub, which is the ideal place to relax.

The layout of the apartment includes a spacious living room with a kitchen and dining area, three bedrooms, two bathrooms, an entrance hall, and a balcony. The price also includes two parking spaces in the underground garage and a cellar, which underlines the practical value of the property.

The residential building itself is designed to a high standard – reinforced concrete construction, high-quality facade insulation, and underfloor heating in the bathrooms guarantee a long service life, low operating costs, and a high level of living comfort.

This modern penthouse thus represents an attractive opportunity to acquire prestigious seaside living, which will also be an excellent investment for the future.
