

A wide-angle photograph of a modern outdoor terrace. In the foreground, a large, light-colored sectional sofa with several textured throw pillows is arranged on a wooden deck. A low wooden coffee table holds three decorative vases. To the right, a dining table with wooden chairs is set up. The terrace is covered by a pergola with a white slatted roof and black frame, adorned with string lights. Large glass doors in the background lead into a modern interior space. The overall aesthetic is clean, minimalist, and contemporary.

About real estate

We offer for sale a design apartment 4+kk with a living area of 112,8 sqm with a balcony of 4,3 sqm and a garden with a terrace of 53,9 sqm in a unique development project Garden Lofts in Pechlátova street, Prague 5. The apartment is situated on the 1st floor of a new building, the interior includes a hallway, a spacious living room with a kitchenette, two bedrooms, a bathroom with a shower, another bathroom with a bathtub and a separate toilet. From the living area there is access to the terrace with its own garden, from the bedroom to the balcony. In addition, the apartment has a separate garden room (33 sqm) with connection to water, waste and electricity. The apartment has a parking space in the underground garage and a brick cellar.

The residence has a private garden (2 495 sqm). It is situated on a sunny slope, which is terminated in the upper part by a wooded area. The different levels will create sufficient privacy for the owners of the apartments and provide the possibility of a variety of uses. On the lower level there is a garden pool with residence terraces for sitting. In the garden, gazebos with facilities for barbecues, picnics, etc. will promote privacy. The higher levels of the garden offer raised beds for growing vegetables or herbs. The upper level then has a fire pit with bench seating. Completely above will be facilities for children with play elements as well as elements for sports and fitness activities.

The house will be built of reinforced concrete frame, complemented by timber structures and solid, high quality insulating glazing. Heating is solved centrally by a gas boiler and heat distribution by underfloor heating in all rooms. The bathrooms will have designer heating elements. Large-format aluminium windows with triple glazing in an industrial design from the prestigious Austrian window manufacturer Reynaers will be equipped (except for the northern facade facing the street) with aluminium roller shutters. The apartments will include a smart home system. The project offers upscale materials with acknowledged industrial elements, with designer tiles and fittings from Elite Bath in the bathrooms.

The general contractor of the building is SWIETELSKI.

Completion: summer 2023.

It is a green area, quiet and away from the main street Radlická. Accessibility to the city centre is easy, from the residence you can walk in 8 minutes to metro B - Radlická. It is also possible to go to the centre by trams No. 7 or 21, whose stop is again a few minutes away. When travelling outside of Prague, you are within minutes in the Smichov Tunnel and the Prague Ring Road. There is a network of shops, schools and stores in Smíchov Anděl with cultural stalls, entertainment centres, offices, banks, medical care, etc. The swimming pool with tennis courts, the Kutvirtova playground, and the Brabenecký Hill, Dívčí hrady and the nearby Prokopské valley are just a few minutes' walk away.

The visualizations are illustrative.
